April 21, 2021

Good evening NWLSD Parents, Guardians, Students, & Staff,

This message is to inform you of the decision made by the School Board tonight regarding the grade reconfiguration of our elementary schools.

The Board of Directors voted to remove the agenda item concerning the elementary reconfiguration from the agenda tonight. This means there was no discussion or vote on this item. The administration will move forward with planning for two K-5 elementary schools for next school year.

We truly appreciate all of the effort and thoughtfulness our board put into navigating this difficult matter and respect the decision of the School Board. As I mentioned in my message last night, now that the School Board has made a decision, it is time for us to focus our energy on coming together as a Tiger community to support our elementary students as we move forward.

Sincerely,

Jennifer L. Holman
Superintendent of Schools
